UNITYCOM

WHITEPAPER VERSION 0.1

Contents

1. PHILOSOPHY

As you all may be feeling, Unity's strength is Loyalty, Humbleness, Positivity & Sensation. We are highlight in Crypto World with different gesticulations. We all have experienced ups and down in Community and everyone is appreciating our greed and fear free optimistic behavior. Now with UnityCom we are about to reflect all good gestures of our digital Community to our physical environment where everyone from us must be witnessing thankless, unappreciative & reward less behaviors everywhere. With UnityCom our aim is to achieve five major goals;

- **Spread Positive Deeds, Ora and ampleness in our Society**
- **Increase Cooperation and Gratitude among Digital Communities & their members**
- **Spread Crypto Awareness & Learning opportunities without investing personal hard-earned money**
- **Starting use of Crypto in Daily Life's related small things**
- **Contribute in Social Causes by joining hands of welfare organizations and putting our independent efforts.**
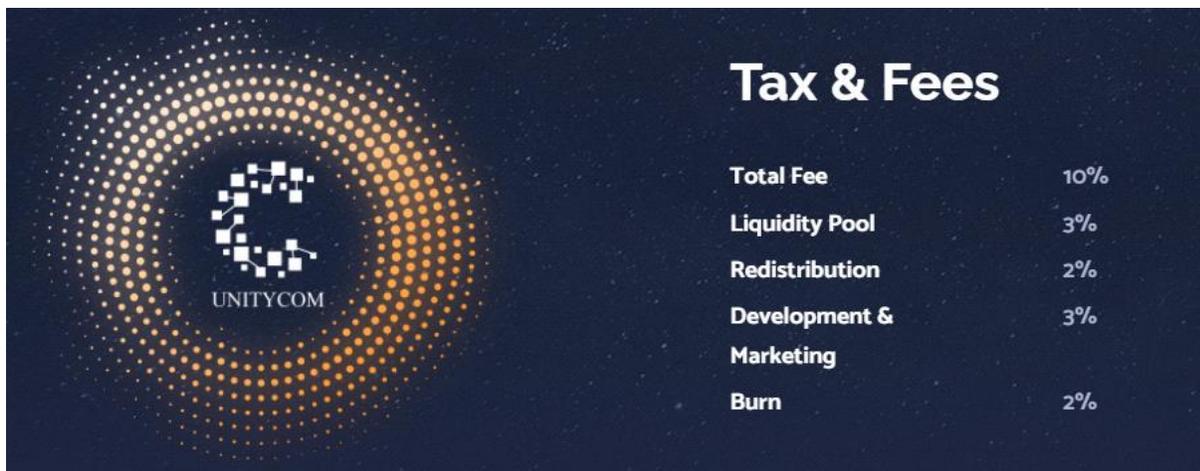

2. TOKENOMICS

Economics

Total token supply - 1 Trillion

- 10% AirDrop
- 30% Presale
- 20% Liquidity & Additional Burns
- 10% Development
- 10% Marketing
- 10% Team
- 10% Donations

3. TAX SYSTEM

To discourage Trading / Scalping of UnityCom, we have implemented high taxes on trade. Collected taxes will be used to Strengthen the Liquidity Pool, Distribution of Reward Token among Holders, collecting Development fee to extend its Eco-System & decreasing circulation supply by sending some share to Burn Address. UnityCom preserves its own customized & feature rich smart contract which has provision to blacklist bots & continues scalpers with Antiwhales & Antidump mechanisms. The smart contract is also programmed to offer community and its offering partners to get exempted from taxes when exchanging token within specified platform.

Tax & Fees

Total Fee	10%
Liquidity Pool	3%
Redistribution	2%
Development & Marketing	3%
Burn	2%

4. USE CASES

The main aim of UnityCom as its name suggests is to build Unity between the Unity Protocol ecosystem. UnityCom will act as a holding pillar between the team and the investors. By holding UnityCom you will be eligible to UnityPAD's exclusive IDO airdrops every month along with special community giveaways which will be held quaterly. UnityCom will also be used as a digitial e-commerce marketplace for the upcoming Metaverse Play To Earn Games launched on UnityPAD. This means that you will be able to purchase digital goods and services using your UnityCom balance in the near future. Goods And Services refers to all exclusive items within the Metaficial World Play To Earn Game, including items, properties, marketplaces and much more. Purchasing goods and services in the Metaficial World would also cost 0.1% UnityCom fees. Fees collected by each transaction will be donated amongst multiple charities whom will be chosen by the community beforehand. Goods And Services refers to all exclusive items within the Metaficial World Play To Earn Game, including items, properties, marketplaces and much more. UnityCom will also act as a way to earn passive income by simply staking your UnityCom and Unity Protocol tokens in the near future to earn BUSD or UnityCom tokens in return. Exclusive IDOs will also be a choice to earn at a low APR before their launch. This would mean you will be able to enjoy exclusive IDO tokens before their launch simply by staking your UnityCom tokens.
